

Performance from Experience

3G Wireless, Broadband and Internet Network Management Research Opportunities

Telcordia Technologies, an industry leader in the design, development and deployment of communications has revolutionized global telecommunications. Our Applied Research area has its main laboratories in Morristown and Red Bank, New Jersey, USA, within easy reach of New York City. Most of the approximately 400 researchers hold advanced degrees in computer science, electrical engineering, and related areas. The Applied Research area provides a unique opportunity for people attracted to work on technically demanding problems whose solutions have direct, real-world application.

Research Scientists

The *Department of Network Operations and Management Research*, in the Internet Architecture Research Laboratory, focus on research in 3G wireless, broadband and Internet network and service management. We are seeking researchers in the following areas:

- Wireless systems (3G, UMTS, IMT2000, 2.5G, GSM, CDMA)
- Management of wireless networks and services
- Mobile networking and computing
- Management of next generation packet networks and services
- Management of broadband networks and services
- Operation support systems

Candidates with or expecting PhD or Masters degrees in Computer Science, Communications Engineering, Electronics Engineering, Electrical Engineering, Mathematical Sciences, or related disciplines are invited to email your resume (in plain ASCII, PDF or Microsoft Word format), including salary requirements, to Hong Cheng hong@research.telcordia.com. Like our technologies, our benefits package exceeds industry standards. For more information, please visit our web site at www.telcordia.com.

About Telcordia Technologies, Inc.

Telcordia Technologies, Inc., an SAIC company, is one of the world's largest providers of operations support systems, network software and consulting and engineering services to the telecommunications industry. A leader in the development of Next Generation Network technologies, Telcordia employs more than 7,000 professionals, and has revenues of more than \$1.5 billion. Telcordia (www.telcordia.com) is headquartered in Morristown, New Jersey, USA with offices throughout the United States, Canada, Europe, Central and South America and Asia Pacific.
